

The **All WeatherMultiCart** comes in multiple parts but the assembly is quick and easy. Just follow the image to put the parts together in seconds. Be sure to insert the piping completely into each PVC connector.

The wheels are already assembled. The package also includes 4 different colored baskets for each color transition tennis ball (red, orange, green) or for regular yellow ones. Each basket will hold up to 100 regular-sized balls.

NOTE: If needed, additional Multi-Color Baskets are available for purchase.
