## **Driveway Tennis Made Easy**

OnCourt OffCourt President Joe Dinoffer recently announced the creation of the smallest quality portable tennis net in the world at only 6 feet wide. According to Dinoffer, “When you drive by neighborhoods, you see small soccer goals everywhere, in front yards, backyards, and driveways. Before now, portable tennis nets have been too big.”

The 6-foot MultiTarget Net sets up in seconds and features the OnCourt OffCourt patented hinged frame system with telescopic poles to allow families to use it for tennis, badminton, and even lead-up volleyball.

The net is available separately for as low as \$79, and a “Driveway Tennis” package is available for \$99 which includes two 21-inch Quick Start Racquets, 6 Quick Start Foam Balls, and a MultiTarget Net.
