Roll-a-Net
Oncourt Offcourt, Ltd.
MULTI-PURPOSE
18' NET SYSTEM
Made in Taiwan

It's our new Roll-a-Net. The highest quality 18-foot net on wheels in the world. Here's what you can do with the Roll-a-Net:

- 1) **KEEP THE NET ON-COURT FOR PARENTS** – The idea is that clubs can wheel the net to the side of the court when not in use. Then, when parents come to hit with their kids, they can pull out the net that their children are using in their tennis classes, borrow the “red balls” from the pro shop or buy their own, and help their young children in a meaningful way.
- 2) **INCLUDES ROLLING DUFFEL BAG** – The Roll-a-Net comes in a very nice wheeling duffel case that makes storage and transport easy. You can also use the Roll-a-Duffel to store or transport other OnCourt OffCourt equipment as well. Here is a sample list of products that would fit inside the Roll-a-Duffel: Airzone, Maxi-Net, PickleNet, and Multi-Net. Retail value: \$59.
- 3) **USE AS A VARIABLE HEIGHT TRAINING AID** – The versatile Roll-a-Net adjusts in height from tennis height all the way up to the 60-inch height needed for badminton. In fact, it is a terrific badminton net as well. You can also use it as a training aid for adults or juniors to hit over as it raises the height of the actual tennis net when placed in front of it. You can also place it on the opposing service line for the players to practice hitting deeper, while hitting more penetrating balls through the court.
