

PickleNet Deluxe™

INSTRUCTIONS

ONCOURT OFFCOURT'S PICKLENET DELUXE™

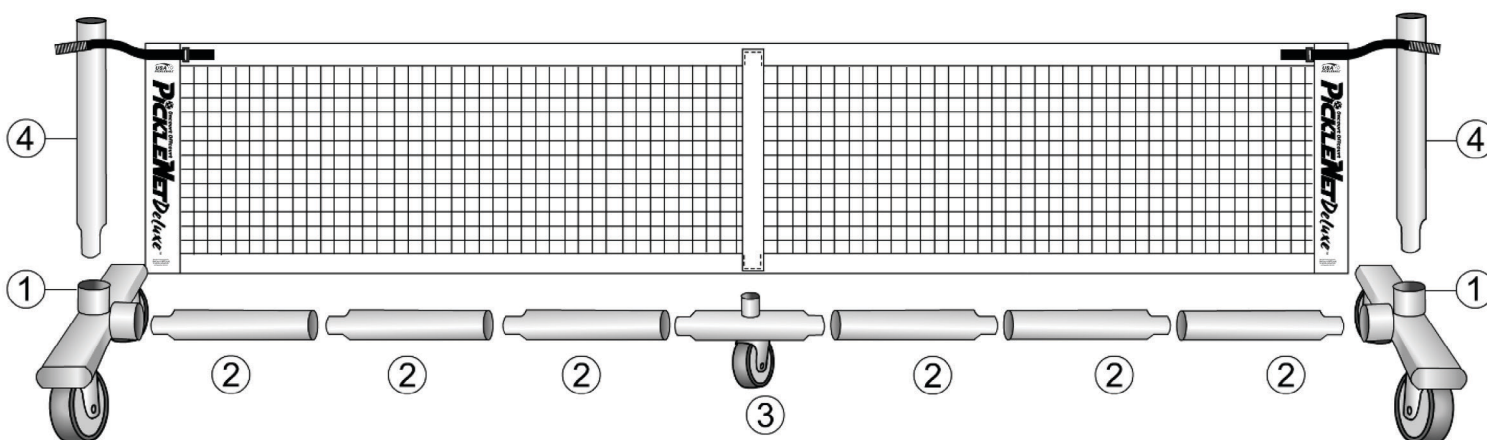

system offers a patented auto-align technology with an oval tube design that starts and stays straight. This net system features a lighter weight hybrid aluminum and steel frame with locking 4-inch wheels. This net can be used on any flat surface and features a high-quality nylon bag with wheels for convenient storage. The PickleNet Deluxe™ meets official pickleball dimensions and is designed for quick assembly and optimal stability.

STEP 1

Assemble the base frame first, working from one side to the other and fitting sections together as shown, making sure the parts are inserted fully into one another.

- Connect the sections marked #2 with each end base #1.
- Insert the center wheel #3 between the sections marked #2.
- Insert each vertical end post #4 into both end bases #1.

STEP 2

Slide the net sleeves over the vertical posts. If needed, angle one of them inwards to gain leverage.

STEP 3

Use the Velcro straps to further extend the headband just enough to eliminate sagging.

STEP 4

Fasten the patented center strap as shown.

STEP 5

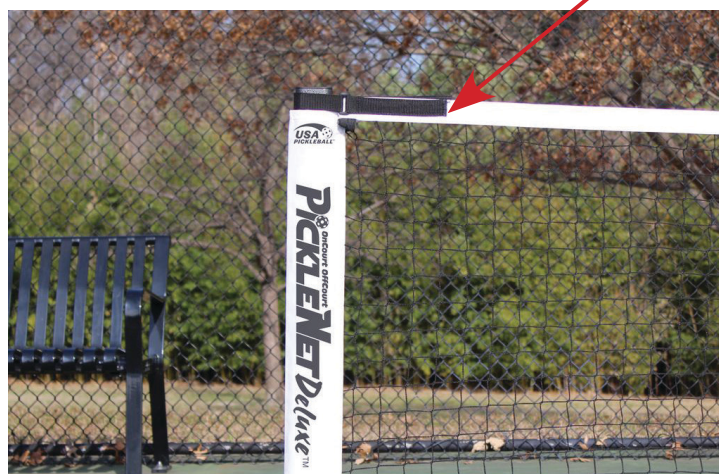

For perfect regulation 36-inch height at the posts, position the sleeves and adjusting straps 1/2 inch below the bottom of the black cap on each side.

PARTS LIST

QUANTITY	PART	LABEL
2	End bases	#1
6	Support beams	#2
1	Center support beam	#3
2	End post	#4
1	Net	
1	Rectangular center strap	
1	Carry bag with wheels	

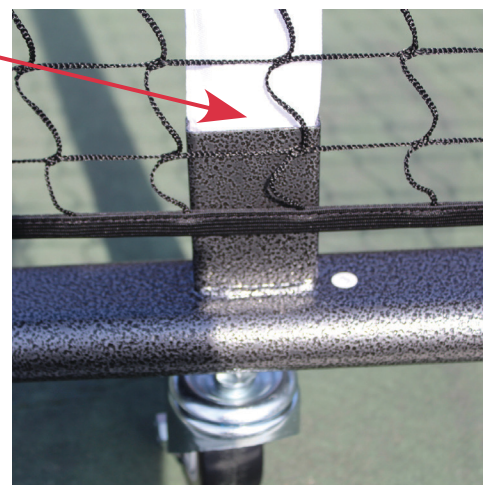

VELCRO STRAPS

Adjusting straps are on both net sleeves.

CENTER STRAP

Insert strap into opening in part #3.

NOTE

The easy way to repeatedly assemble and disassemble the PickleNet Deluxe is to leave the net over the end posts and simply roll up the net.
