

GENDER BENDER

According to men, most of the tissues
Are meant for women; it's their issues.
But if true, in this creation of God, shouldn't ...

Hysteria be "HERsteria"?
Menopause be "WOMENpause"?
And a hysterectomy called "HER'S" as well?

And why do men think that just women
Get in a tissy called a HISsy,
And are all the latins and HISpanics male?

Further, are all our MANagers men?
And how about the word MANicurists!
Why? Since almost every one is a woman!

While we're at it, shouldn't parts of HIStory,
Finally be renamed "HERstory" ...
Changing the name HERcules to "HIScules"?

Plus, since wars are started by men
And aHIMsa means non-violence,
Wouldn't aHERsa be more appropriate?

Finally, let's examine one last word.
What about those prayerfully sung "hymns"?
Shouldn't we rename many of them "HERms" instead?

So, MEN, let's get past gender benders;
MAN up, see beyond externals,
And MANifest the most huMAN qualities possible?

aMEN to that!
