

New iPhone Ultimate Remote Control App

Available Now!

The new iPhone Ultimate Remote Control App is now available on iTunes for immediate download.

All **Grand Series** portables and **Phenom Series** commercial machines, compatible with the iPhone Remote Control system, will now ship with the compatible software for use with the new Ultimate Remote Control app.

Below are product images of the new iPhone Ultimate Remote Control App. These images depict the app screen used to select the location in which you want the ball to land and an image of the app screen that allows you to independently assign the ball speed, ball spin, and ball feed rate for each shot in your custom court drill created.
