

## Rebounder Deluxe™ Instructions

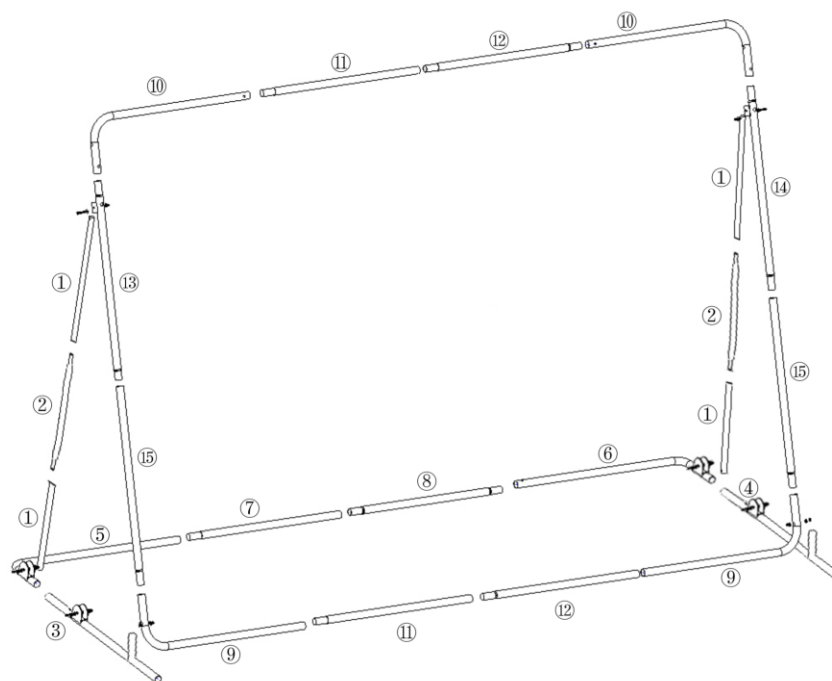

[www.OnCourtOffCourt.com](http://www.OnCourtOffCourt.com)

The Rebounder Deluxe is the largest rebound net in the tennis industry and the only one on wheels. The dimensions are 82" tall, 122" wide, and 49" deep. Use this sheet to guide you through assembly and care to ensure years of enjoyment and practice. Open the box in the spacious area you will assemble the unit and check that all parts are ready for assembly per the diagram with labeled parts below.

**STEP #1:** Watch the "Set-Up Video" with step-by-step instructions: Enter <https://youtu.be/iH2AeNDeRuM> on YouTube or check out the video on our product page at [www.OnCourtOffCourt.com](http://www.OnCourtOffCourt.com).

**STEP #2:** Assemble the frame as shown below and in the set-up video and add the netting with the Velcro straps.

**STEP #3:** Position in your desired location, lock the wheels, and have fun!

**DRILL IDEAS:** In addition to one person using the Rebounder like a backboard, two players can also hit simultaneously, one on each side of the net, as long as the net is in the vertical position. Two players can also hit from the same side of the net, alternating shots. You can also hit balls out of the air or after a bounce AND for a great workout try alternating shots.
